

High Output Compression Driver

The P Audio SD-750N is a state of the art high output compression driver. Advanced engineering and manufacturing methods have produced an extremely reliable and wide bandwidth device that also features very high fidelity.

Specifications

Overall Diameter	135 mm/5.3 inch
Throat Diameter	51 mm/2 inch
Diaphragm Diameter	72.2 mm/2.84 inch
Nominal Impedance	8Ω
Voice Coil DC Resistance	6.2Ω
Power Handling	100 Watt
Frequency Range (± 10 dB)	500Hz - 18kHz
Sensitivity	112 dB
Recommended Crossover	1kHz
Mounting Type	Bolt On
Magnet type	Neodymium 33SH Nikle
Magnet size	135 x 82 x 9 (mm)
Magnet weight	21.0 oz
Diaphragm material	Titanium
Diaphragm Colour	Metalic Silver
Voice coil wire	ALR
Voice coil former	NSV
Cover material	Aluminium
Cover colour	Black
Gasket material	EVA
Gasket colour	Black
Packing Quantity	2 pcs
Packing dimension WxDxH (mm)	360 x 180 x 135
